

TO KNOW OUR CATHOLIC FAITH

World Day of the Sick
February 11

St. Pope John Paul II established this special day in 1992 as a way for prayers to be offered for those who are sick, for their caregivers and for healthcare professionals. There are a variety of organizations throughout the world that not only care for the sick on this day, but provide food and services.

I invite us to remember all the sick throughout the world on this date and to particularly remember the sick within our own families and the parish family of Our Lady of Lourdes.

May Christ bring healing to our bodies and souls!

-Very Reverend W.C. Paysse, V.F.
